Tendering opportunity - can you help the CLT?

As we reported last month, Calder Valley CLT has been awarded a major grant from Big Potential to carry out detailed investment readiness work on our two housing development sites.

We are working with an external partner Locality to carry out the detailed investment readiness work but **we also need additional business development tasks carrying out** and we are now in the position of being able to fund them. We are currently advertising for suitably qualified consultants to tender to undertake this work.

A comprehensive tender document is on our website. Follow the link from <http://www.caldervalleyclt.org.uk/news.html>. Deadline for submissions is June 7th.

AGM minutes

Thank you if you came to our AGM on May 19th. We were pleased to have old members present (and three new members who joined up then!). We hope you found it a useful occasion.

Draft minutes of the meeting are now available on our website.

High Street - meeting on sustainability, June 5th

We are holding a special workshop in order to develop a Sustainability Action Plan for the High Street development. This will be on Tuesday June 5th. If you are interested, please email us at info@caldervalleyclt.org.uk.

Walsden development

We are hoping that we will be ready to apply for planning permission for the six independent living bungalows in Walsden very shortly. We'll keep you posted.
